NORDIC WALKING (MONDAYS)

this full-body endurance sport can be learned easily and quickly. good for a balanced heart-circulation-system and gentle & sparing on the spine and joints – so you can still duly enjoy the pretty landscape.

MOUNTAINBIKE TOUR WITH GERHARD (TUESDAYS)

traverse the mountain scenery of the glemmtal on mountain bike. the difficulty level of this tour is adapted to the group's demands here and is thus achievable for everyone – with or without ascent sports.

HIKE UP THE KLEBERKOPF 1,757M (THURSDAYS)

Starting off with the kohlmaisbahn cable car up to the mountain station, one can then comfortably march up

to the kleberkopf, which is not only known for its wealth of plants and flowers, but is also a popular (family) hiking destination due to its beautiful views.

ZUMBA (THURSDAYS)

having fun is the main focus here. by combining simple step sequences and belly-dance movements, Zumba mixes dancing and aerobics into a full-body workout.

RAVINE SWIMMING (CANYONING) (FRIDAYS)

good swimming skills and a degree of courage and stamina need to be brought along on this unique outdoor adventure. the course leads through naturally-created, wild torrents and ravines, whereat various methods of moving forward occur - including swimming, walking, jumping and sliding.
